## INSTRUCTIONS

1. First, we are going to trace on the NCR patterns to side of the unicorn. Use a red pen to firmly trace over all of the lines. Before you remove the pattern, hold it in place on the corner and peel back the pattern to check and see if you've traced on all of the lines.
2. Use a pencil to gently sketch on the facial features.
3. Paint the unicorn body (around the lines of the skeleton) with 3 coats of Fresh Heather. When painting around the lines of the skeleton, use a liner brush.
4. Paint on the nostril, eye, and mouth with 3 coats of Fresh Heather using a detail brush.
5. Paint in the sections of the mane and tail using a liner brush and the various shades of pink: Pretty In Pink, Chiffon, Carnation, and Blush. Paint 3 coats on each section.
6. Use a detail brush to paint lines of Fresh Heather in the grooves of the horn.
7. Finally, dip the handle of the detail brush into Snowflake and tap on the eye for a highlight.

## TIPS

- The harder you push on the brush, the heavier the line will be. When you're using the liner brush, use the tip of the brush and very light pressure.
- If desired you can paint in the bones and hooves with white paint, or you can leave them unpainted and they'll be shiny.
